Windows 10 October 2020 Update is live! After several months of testing from Insider, version 20H2 of October 2020 goes live to the public. Like the previous versions, this would be a phased-out rollout, which means not everyone would get it at the same time. However, through the ISO files, you can force and clean install Windows 10 version 20H2 on your devices without waiting for official notification. We had already shared with you the steps to install October 2020 Update ahead of the package, but now that the official files of Windows 10 ISO are out, you do not need to go through any tedious process.
